LEGISLATIVE WORK.

After having been in session now nearly two months with but a small record of work done, our Legislators are confronted with two measures that have been each so much talked of, in different sections of the community, and are each so radically different one from the other in every respect,—that the Legislative situation is about to become interesting, at last. The two measures to which we refer are—A National Loan, and a Prohibition Law. There are two loan bills before the Assembly, the one introduced by Mr. Lahilahi, authorizing the borrowing of Ten Millions, and another by the Attorney-General providing for the issuance of bonds for an aggregate sum, not to exceed Two Millions. The discussion of these two measures will doubtless take up much time, and a great deal of eloquence and wisdom will be ventilated by the honorable members from Molokini and Kahoolawe in regard to financial matters; but we venture the prediction that the last named bill will be the one to pass. Then in regard to the liquor business—there are two prominent bills before the House. One, brought in by the Hon. Mr. Kaunamano, is identical with a bill which was passed by the Assembly in 1880, but which failed for some reason to be approved by the King. It removes the restrictions on selling or furnishing to natives, and permits the issuance of licenses for other places than Honolulu. The bill of the Hon. Mr. Rice, which was introduced yesterday, is to all intents and purposes a prohibitory law. Spirituous liquors are to be imported only by Government, and to be used, under special license only for medicinal, mechanical, scientific or religious purposes. Between debt and drink—two demons—the Assembly has now something to do. Let us see,—what we shall see.

After a week of seriousness with Hallenbeck it will be a harmless dissipation to go and see Zamloch to-night.

It is reported that Mr. Claus Spreckles has purchased from Her Highness, Ruth Keelikolani, a large tract, almost an entire square, of land bounded by Queen and Merchant Streets, on which he purposes to make valuable improvements.

Why don't people trim their trees? was the question asked us the other day, by some one who had narrowly escaped getting his eyes put out by an overhanging branch on the sidewalk. Our answer was, the old one. It is everybody's business to attend to such matters, and therefore nobody's. We added, by way of a joke, a recommendation to go and complain to the Marshal.

LEGISLATIVE.

Friday, June 23.—Mr. Rice read first time his bill entitled "An Act to regulate the use of intoxicating drinks." Ordered to be printed.

Mr. Lahilahi offered a resolution to the effect that the Minister of Finance be instructed to pay Representatives the sum of \$250 each, to make up the sum of \$500, in accordance with the amendment of Article 56 of the Constitution, as passed by the House.

The Minister of Foreign Affairs suggested that the Assembly should defer the consideration of this resolution until the Attorney-General was present.

Mr. Kalua said that the Attorney-General had been inquired of in regard to the force of the amendment in question, but his reply had not yet been received. The resolution was laid on the table until the Attorney-General's opinion thereon shall be had.

Mr. Palohau gave notice of intention to introduce a bill to amend Sections 3, 4, 5, 6, and 7, of Chapter 9 of the Penal Code, "Assault and Battery."

The Attorney-General having entered, the subject of Mr. Lahilahi's resolution was resumed. Mr. Preston stated that the Constitutional provision was unmistakable, that "no increase of compensation [of Representatives] shall take effect during the year in which it shall have been made."

A lively and exciting discussion ensued on the question of the rejection of the resolution, which was eventually carried by a vote of 26 to 16.

Mr. Keau offered a resolution to the effect, that a select committee be appointed to wait on His Majesty the King and inform him that the Legislative Assembly stand ready to be prorogued at the hour of 12 o'clock noon, tomorrow.

The question was put on this resolution, and resulted in, yeas 26 yeas 16.

At the reassembling of the House after luncheon, Mr. Palohau moved to reconsider the vote indefinitely postponing the resolution requiring \$250 more for pay of Representatives. A heated discussion ensued, in which the Minister of the Interior, Mr. Kapena, and Mr. Aholo took part, upon the conclusion of which the motion was negatived by a vote of 20 to 18.

The Assembly went into committee of the whole on the order of the day, the Appropriation Bill. After getting as far as the Deputy Collector General of Customs, whose stipend was reduced from \$5000 to \$4000 for the two years, the Committee rose and the House adjourned.

The Band will give a Moonlight Concert at the Hawaiian Hotel next Monday evening, and at Emma Square on Tuesday and Thursday evening of next week.

The water course that for 7 week ran down Alakea street from the artesian well on the Hotel premises, has dried up. It seems that there was a fracture in the pipe, some 12 or more feet below the surface. The accumulated water has been pumped out and the defect mended. Pipes are being laid to carry the new water supply all over the Hotel.

Boards of Health.

Mr. Editor:—I find the following statement in the Weekly Advertiser of Saturday last: "In some countries there are numerous Boards of Health, over whom, however, some Minister is always supreme." That "in some countries there are numerous Boards of Health" everybody knows, but that over those Boards "some Minister is always supreme" is not correct. The Advertiser has either purposely perverted the truth, or is imperfectly informed. As the article quoted from is a plea for the "absolute control of everything" by Ministers, the writer may have considered that the perversion of truth strengthened his position. If he is really ignorant of the existence of Boards of Health independent of Ministerial control, he would be enlightened by reading Professor Irving's "British Constitution," and he would learn that there are Boards of Health entirely independent of Ministerial control. The Advertiser's notion of concentrated control is, a backward step of a half century, or more. The modern "march of ideas," among all enlightened people and in all constitutional countries, is towards decentralisation of power and division of control. FREEDOM.

During the month of April last, a lot of packages of Chinese goods were received here ex steamship Zealandia, but the consignee did not turn up, and the packages were stored in the Custom House. Yesterday, the advertised time having expired, these goods were examined, and it was found that in the lot were over a thousand packages of opium—more than \$12,000 worth, at San Francisco prices! Here is a "topsail haul" for the Customs guards.

THE "Gospel Temperance" meeting at the Fort street Church was largely attended last evening, and the services, both in the primary and the subsequent meeting, were deeply impressive and interesting. The series of revival meetings will be resumed on Sunday (to-morrow) evening, under the leadership of Mr. Hallenbeck.

THE first of our Honolulu artesian wells, that of Mr. Marquez, has, we regret to say, shown signs of giving out during the past few days, although that of Mr. Dillingham, in the immediate neighborhood, appears to be flowing with undiminished volume. There may be some as yet unexplained reason for the failure, or partial failure of the former well, connected with the system of construction? but it may be proper for us to remember that this island is but a veritable "pin head" on the surface of the Pacific Ocean, and that we have not any great amount of terrestrial backing.

Mr. FISHEL has a grand opening of Parisian Hats, Millinery and Fancy Goods, to-day. Read his advertisement.

Our readers will have noticed the advertisement in the last four issues of the BULLETIN, signed by H. A. Heen, respecting the loss of a number of drafts for money, and cash. We are informed by a letter which Marshal Parke has received from Sheriff Newton, at Lahaina, dated June 21st, that a boat-boy, named Kele Makekau, on that day brought to him a purse containing the aforesaid money and drafts, which Mr. Heen must have dropped in the boat on his way to the steamer. The honesty of this Hawaiian should be remembered in his favor.

With the vision before our eyes of a vote of expulsion from the re-pertorial seat in the Assembly, we yet dare to assert that the resolution calling for an extra two hundred and fifty dollars for the Representatives, was a simple attempt to grab.
